CRAFT BREWERY

FROM WROCŁAW IN POLAND

The Wrocław craft brewery Profesja was founded by home brewers, beer enthusiasts and hopheads. Since 2015, we have been brewing 100% natural beer, without redundant additives and from the highest quality raw materials. Our offer includes classic styles: wheat beers, Baltic porters, stouts, new wave styles with a substancial bitterness (IPA, APA), non-alcoholic beers, or unique premium beers (barrel aged or with the addition of natural honey), Also fans of light fruit beers will find something for themselves - an edition of sour beers with raspberries, blackthorn, rhubarb or cherry and strawberry.

The special sign of our beers: dwarf on labels!
